DIOCESAN SOCIAL PROFILE

Based on the 2016 Australian Census

Archdiocese of Sydney

Australian Catholic Bishops Conference Australian Catholic Council for Pastoral Research

September 2019

Dear readers,

The Australian Catholic Bishops Conference is pleased to make available to you this profile of the Catholic population of your diocese.

I hope that you will find it to be a valuable tool for your diocese's pastoral planning by helping you understand the local Catholic community and assess its needs. Diocesan pastoral councils and diocesan agencies in particular will find it a useful resource.

The data in this profile have been sourced from the Australian Census, which is carried out every five years by the Australian Bureau of Statistics. Most of the data comes from the 2016 Census, but some comparisons are provided with 2011 and earlier years.

It is important to remember that most of the data in this profile applies to all those people living within the boundaries of your diocese who identified themselves as Catholic in the Census. Census data inform us about a population's demographic characteristics, but not about their religious practice.

This social profile, produced for every Catholic parish and diocese in Australia, is an outcome of the National Catholic Census Project established by the Bishops Conference at the time of the 1991 Census. This project is managed by the ACBC National Centre for Pastoral Research. The Australian Catholic Council for Pastoral Research is most grateful to the Centre's staff for the work that they do in providing demographic resources for parishes and dioceses, including this social profile.

This profile is provided to you free of charge by the Bishops Conference as part of its commitment to the support of parish and diocesan life. I trust that you find it informative, useful and thought-provoking.

Yours sincerely,

(Professor) Gabrielle McMullen AM

Chair, Australian Catholic Council for Pastoral Research

Gabrielle M'Mille

Diocesan Social Profile

At a Glance (pages 2 and 3)

Provides a brief glance at some key demographic indicators for the diocese.

	rage
Diocesan snapshot	2
What has changed since 1996?	3

Dago

Diocesan Overview (pages 4-7)

Provides a clear overview of the Catholic community of the diocese, how it is changing and how it compares to other dioceses.

Know the diocesan community

Pastoral planning is the process of a Catholic community organising itself to carry out the mission of the Church in its own locality. It is a process built upon a diocese's knowledge in three areas:

- Knowing its vision—its aspiration for itself.
- Knowing what sort of people make up the Catholic community and the general community.
- Knowing the resources (strengths, gifts and circumstances) available to the diocese to realise the vision.

This Diocesan Social Profile has been developed as a resource for pastoral planning, and it focuses on the second two of these three areas of knowledge.

The Church strongly encourages pastoral planning. As Pope John Paul II said:

"I earnestly exhort the Pastors of the particular Churches, with the help of all sectors of God's People, confidently to plan the stages of the journey ahead, harmonising the choices of each diocesan community with those of neighbouring Churches and of the universal Church ... It is not a matter of inventing a 'new program'. The program already exists: it is the plan found in the Gospel and in the living Tradition."

Novo Millennio Ineunte #29

By giving a clear picture of the diocese's demographic reality, this profile helps the diocesan leaders name its strengths and shortcomings and better understand how it might use the resources it has to pursue the mission of the Church.

A SNAPSHOT OF THE DIOCESE (2016)

Total Population: 2,455,169

Catholic Population: 594,145

Catholics make up 24.2 per cent of the total population

Median age of Catholics is 38 years

Total Catholic families: 204,898

51,701 Catholics live alone

218,137 Catholics were born overseas

36,059 Catholics do not speak English well

36,027 Catholics need assistance with core activities

166,112 Catholics have changed address since 2011

What has changed in the diocesan community since 1996?

This chart will help you identify at a glance changes in some of the key indicators for Catholics in the diocese between 1996 and 2016, and may alert you to possible trends that are occurring. The 2011 and 2016 figures are drawn from the Diocesan Overview tables on pages 4-7. All figures in this table refer to Catholics only. The term 'Catholic' in this report refers to all persons who identified themselves as Catholics in the Census, not only those who have some form of active association with the Church.

	Diocese in 1996	Diocese in 2001	Diocese in 2006	Diocese in 2011	Diocese in 2016
Catholic population	588,820	596,697	594,700	611,431	594,145
Catholics aged 0-14 (%)	19.5	19.3	19.1	19.0	18.5
Catholics aged 65+ (%)	12.5	13.1	14.0	14.6	16.4
Catholics born in NESC ¹ (%)	31.1	30.1	29.7	29.8	31.4
Catholics not proficient in English (%)	6.8	6.3	6.1	5.8	6.1
Catholic families	190,455	198,675	200,534	208,055	204,898
Catholics living alone	48,598	53,216	55,521	56,016	51,701
Catholic students attending Catholic schools (%)	60.5	60.0	60.3	59.7	59.9
Catholics with university degree (%)	12.3	15.9	19.6	23.1	27.3
Catholic males in labour force (%)	70.0	63.3	69.0	68.8	69.0
Catholic females in labour force (%)	54.3	53.4	56.4	57.9	59.6
Catholic households owning or purchasing dwelling (%)	62.9	63.3	65.1	65.4	63.4

Notes:

1. NESC = Non-English-Speaking Country.

Table 1: Population (for more details on Population and Religion see page 9).

The Diocesan Profile begins by looking at the total population living within the diocesan boundaries, and the percentage who identified as Catholic. The rest of the figures in this overview refer only to these Catholics, except where otherwise indicated.

How has the make-up of the diocesan population changed over the last five years? Of the changes identified here, which do you think have been particularly significant for the life of the diocese?

Table 1: Population ¹	Diocese 2016	Diocese 2011	Australia 2016	Australia 2011	Diocese 2016 Rank ²	Diocese 2011 Rank ²
Total population ³	2,455,169	2,223,104	23,401,892	21,507,719	3	3
Catholic population	594,145	611,431	5,291,834	5,439,267	3	3
Per cent Catholic	24.2	27.5	22.6	25.3	8	7
At same address since previous Census (%)	57.9	58.9	57.3	57.5	9	10
Median age ⁴ (years)	38	37	40	38	20	15
Aged 0-14 (%)	18.5	19.0	19.8	20.5	26	26
Aged 65+ (%)	16.4	14.6	16.6	14.1	17	14
Males per 100 females	91.0	91.8	90.6	92.1	17	22

Table 2: Disability (for more details on Disability and Carers see page 12).

Table 2 shows the percentage of Catholics who are disabled to the extent that they require assistance for some core activities (i.e. they need help or assistance with self-care, communication or mobility). It also shows the percentage of Catholics who provide unpaid assistance to a person with some form of disability.

In what particular ways does the diocese support disabled persons and their carers?

Table 2: Disability	Diocese 2016	Diocese 2011	Australia 2016	Australia 2011	Diocese 2016 Rank	Diocese 2011 Rank
Need assistance with core activities (%)	6.1	5.2	5.8	4.9	9	10
Provided unpaid assistance to a person with a disability ⁵ (% of Catholics aged 15+)	12.2	11.5	12.5	11.7	19	18

Notes

- 1. All figures in this report refer to Catholics only, except for Total Population and certain other clearly indicated figures.
- 2. A Diocesan Rank of 1 indicates that the diocese had the highest score of any diocese, while the diocese with the lowest score will have a Diocesan Rank of 28.
- 3. The population figures for the diocese and Australia do not included overseas visitors.
- 4. Median Age: Half the Catholic population of the diocese (or Australia) are above this age, half are below it. A Diocesan Rank of 1 signifies that the diocese has the highest median age of all dioceses.
- 5. The Census asked whether a person had provided unpaid assistance to a person with a disability in the two weeks prior to the Census.

Table 3: Employment (for more details on Occupation and Employment see pages 23-25).

The extent to which people are involved in the labour force, and the type of work they are doing, influences and shapes many aspects of the community's life.

How might the changes in the employment status of Catholics over the last five years have affected the diocese?

Table 3: Employment	Diocese 2016	Diocese 2011	Australia 2016	Australia 2011	Diocese 2016 Rank	Diocese 2011 Rank
Managers and Professionals ¹ (% of those recording an occupation)	40.5	38.9	34.1	33.0	2	2
Workers in 'blue collar' occupations ² (% of those recording an occupation)	24.1	24.5	29.6	30.6	27	27
Men, employed or seeking work ³ (%)	69.0	68.8	69.7	69.6	12	15
Women, employed or seeking work ³ (%)	59.6	57.9	60.6	58.5	14	13
Unemployed at time of Census ⁴ (%)	5.0	5.0	5.8	5.0	23	11
Youth unemployed at time of Census ⁵ (%)	10.4	10.8	12.2	10.2	25	7

Table 4: Birthplace and Language (for more details on Birthplace and Language see pages 17-19).

This table begins to explore the ethnic balance of the diocese's Catholic community, which in itself may raise issues of communication and inclusiveness.

Is there a need for the diocese to review the way it addresses the needs of recently arrived Catholic migrants? How does the cultural mix of the diocese compare to that in the rest of Australia?

Table 4: Birthplace, Indigenous Status & Language	Diocese 2016	Diocese 2011	Australia 2016	Australia 2011	Diocese 2016 Rank	Diocese 2011 Rank
Born overseas in English-speaking country ⁶	5.4	5.5	5.6	5.7	8	7
Born overseas in non-English-speaking country (%)	31.4	29.8	19.1	17.9	1	1
Immigrants from non-English-speaking countries arriving in Census year or previous 3 years	22,315	16,129	106,428	98,723	2	2
Indigenous Australians	5,992	5,546	133,528	124,610	7	7
Speak language other than English at home (%)	37.8	36.6	20.4	19.0	1	1
Not proficient in English ⁷ (%)	6.1	5.8	2.6	2.6	1	1

Notes

- 1. This group includes, for example, farmers and farm managers, sales, marketing and production managers, education and health service managers, retail managers, school principals and school teachers, medical practitioners, nurses, scientists, arts and media professionals, accountants, engineers and IT professionals.
- 2. This group includes, for example, toolmakers, technicians, electricians, carpenters, plumbers, bakers and chefs, veterinary nurses, hairdressers, machinery operators, drivers, cleaners and labourers.
- 3. The percentage of Catholics aged 15+ who are in the labour force (i.e. employed or seeking employment).
- 4. The percentage of Catholics aged 15+ who are in the labour force and were unemployed at the time of the Census.
- 5. The percentage of Catholics aged 15-24 who are in the labour force and were unemployed at the time of the Census.
- 6. New Zealand, United Kingdom, Ireland, United States, Canada and South Africa.
- 7. Percentage of all Catholics who reported that they spoke English not well, or not at all.

Table 5: Education (for more details on Education and Qualifications see pages 20-22).

Catholic schools are a very important part of every diocese in Australia. This table is primarily devoted to the educational participation of young Catholics and to the percentage of non-Catholics in Catholic schools.

What are the implications for the diocese, if any, of changes in the percentage of Catholics with a university degree?

Has there been any change in the percentage of young Catholics continuing their education in the post-compulsory years?

What challenges for the diocese are associated with the percentage of Catholic students attending Catholic schools? And what challenges are associated with the percentage of non-Catholics among students at Catholic schools?

In relation to the topics covered in this table, how does this diocese compare with other dioceses in Australia?

Table 5: Education ¹	Diocese 2016	Diocese 2011	Australia 2016	Australia 2011	Diocese 2016 Rank	Diocese 2011 Rank
Catholics aged 15+ with bachelor degree or higher qualification (%)	27.3	23.1	20.6	17.6	2	2
Aged 15-17 attending an educational institution	94.0	90.3	92.2	87.2	4	2
Aged 18-19 attending an educational institution	75.7	71.6	62.9	57.8	1	1
Aged 20-24 attending an educational institution	46.9	42.7	38.2	34.3	1	2
Catholic primary students attending Catholic schools (%)	57.6	58.3	53.1	52.8	4	2
Catholic primary students attending Government schools (%)	36.8	36.0	41.0	41.2	25	27
Catholic secondary students attending Catholic schools (%)	62.8	61.4	54.5	52.8	1	1
Catholic secondary students attending Government schools (%)	27.5	29.9	35.1	37.2	28	27
Primary students attending Catholic schools who are not Catholic ¹ (%)	21.4	16.8	28.1	24.1	26	25
Secondary students attending Catholic schools who are not Catholic¹ (%)	29.0	26.0	35.7	31.5	26	24

Note:

1. 'Students ... who are not Catholic' includes a small proportion whose religion was not stated in the Census. Some of these may be Catholic.

Tables 6, 7 and 8: Marital status, Families and Households (for more details see pages 13-16).

In 2016, 82 per cent of Australia's Catholics lived in a family setting, with a further nine per cent living alone. The most common type of Catholic family was a couple family with children (45 per cent of all families where at least one person was a Catholic), followed by couple families without children (35%) and one-parent families (parent Catholic, 12%).

Have you observed changes to marriage and family life in recent years? Do you think these changes are common to Australia as a whole, or are they particularly prevalent in this diocese?

What programs and strategies does the diocese have in place to support families with children? One-parent families? Catholics living alone? Catholics who are separated or divorced?

Table 6: Marital status of Catholics aged 15+	Diocese 2016	Diocese 2011	Australia 2016	Australia 2011	Diocese 2016 Rank	Diocese 2011 Rank
Never married (%)	36.5	36.7	33.3	33.9	5	5
Married (%)	47.5	47.3	49.7	49.6	24	23
Divorced or Separated (%)	10.2	10.0	11.2	10.8	26	25
Widowed (%)	5.8	5.9	5.8	5.7	15	14

Table 7: Families¹ in which at least one person is Catholic	Diocese 2016	Diocese 2011	Australia 2016	Australia 2011	Diocese 2016 Rank	Diocese 2011 Rank
Families	204,910	208,055	1,997,833	2,019,556	3	3
One-parent families	24,975	26,332	231,370	239,340	3	3
One-parent families (% of all families)	12.2	12.7	11.6	11.9	8	6
Couples of mixed religions ² (%)	46.5	46.7	55.9	55.1	27	28
De facto couples (%)	16.5	15.1	17.7	16.2	23	24
Median annual family income ³ (\$)	117,208	97,820	100,270	86,401	4	6

Table 8: Households ⁴ in which at least one person is Catholic	Diocese 2016	Diocese 2011	Australia 2016	Australia 2011	Diocese 2016 Rank	Diocese 2011 Rank
Households	268,797	277,310	2,548,354	2,594,239	3	3
Persons living alone (aged under 35)	6,389	8,942	53,499	68,455	3	2
Persons living alone (aged 35+)	45,312	47,074	407,684	402,158	3	3
Persons living alone (total)	51,701	56,016	461,183	470,613	3	3
Persons living alone (% of all persons)	8.7	9.2	8.7	8.7	17	13
Dwellings owned or being purchased (%)	63.4	65.4	71.2	71.4	25	23
Median monthly housing loan repayment ⁵ (\$)	2,390	2,365	1,873	1,861	2	1

Notes

- 1. A family is defined by the Australian Bureau of Statistics as two or more persons, one of whom is at least 15 years of age, who are related by blood, marriage (registered or de facto), adoption, step or fostering, and who are usually resident in the same household. Family members who live elsewhere are not included in the Census definition.
- 2. Married or de facto couples where only one partner is Catholic as a percentage of all couples where at least one partner is Catholic.
- 3. Fifty per cent of families have a higher income, fifty per cent a lower income. Family income is the sum of the incomes of all family members aged 15 and over.
- 4. A household can consist of one or more families, non-family groups or persons living alone.
- 5. Fifty per cent of households with a housing loan pay a higher repayment, fifty per cent a lower figure.

Occupation	25

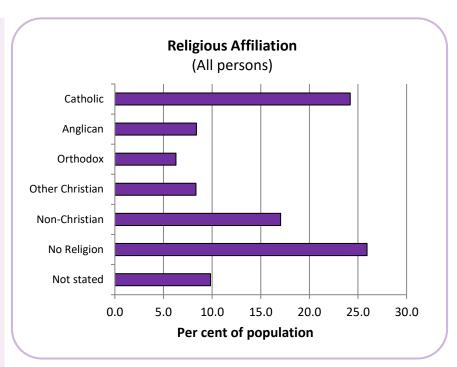

Religious affiliation

The Census question about religion is optional, and just under ten per cent of people across Australia chose not to answer it. Note that the question is about religious identification rather than religious practice or belief. For the 2016 Census, the ABS moved the 'No Religion' response category to be the first response category in the religion question. Prior to 2016, it was the last response category.

How does the number of Catholics in the 0-9 age group compare with the number of children baptised in the diocese in the period 2007-2016?

What are the largest non-Catholic religious groups? What involvement does the diocese have in ecumenical and interfaith activities and programs?

What challenges to the diocese are associated with the increase in the number of people who report that they have no religion?

Note: No Religion also includes Secular Beliefs and Other Spiritual Beliefs and No Religious
Affiliation

Not Stated also includes Inadequately Described.

Table 9: Religious affiliation by age	0-9	10-19	20-29	30-39	40-49	50-59	60-69	70-79	80+	Total

Not Stated	26,178	21,517	48,048	44,959	31,777	27,237	20,174	12,013	9,474	241,377
Total Population	287,267	261,056	426,354	412,070	331,344	290,526	219,577	133,672	93,292	2,455,158

Note: Since the 1996 Census, following consultation with the Eastern Catholic Bishops, Eastern Catholics have been counted separately from Western (or Latin Rite) Catholics. Catholics belonging to the Chaldean, Maronite, Melkite, Syro-Malabar or Ukrainian Catholic Churches have been requested by their Bishops NOT to tick the box marked 'Catholic' on the Census form, but rather to write, for example, 'Maronite Catholic' in the space provided. Those Eastern Catholics who were unaware of this request and who ticked the 'Catholic' box are counted as Western Catholics.

Age and sex

Table 10: Age by sex	Males 2016	Females 2016	Total 2016	Total 2011

The table on this page shows the number of Catholics in Australia in 2016, by age and sex, and compares the total number of Catholics in each age group with the figure in 2011.

In 1996, the median age of Catholics in Australia was 33 years; by 2016, this had risen to 40 years.

Several factors can influence the age profile, including fertility rates in the past and mortality rates, but in many parishes and dioceses the key factor is migration, related either to people moving to other parts of the country or to people arriving from other parishes or dioceses, or from overseas.

It is important to keep an eye on how the diocesan age profile changes over time, as different age groups have different needs and require different pastoral responses.

In this diocese, which age group has the largest Catholic population?

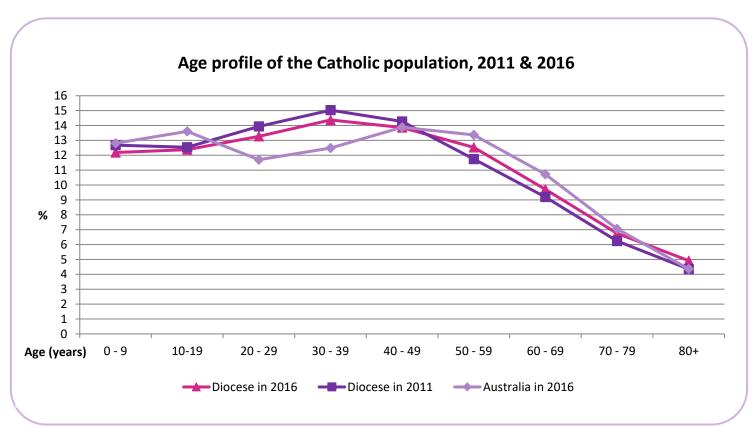

Which age groups have seen the greatest changes since 2011?

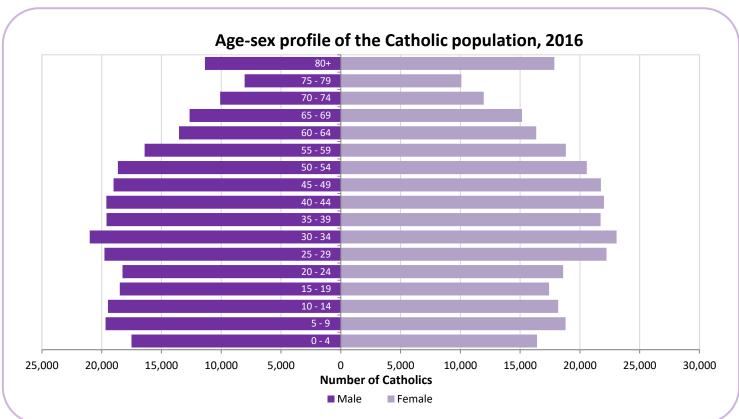

Does this data suggest any new challenges for the diocese?

Note: The Catholic population of the diocese may be slightly different in different tables in this profile as a result of the randomization procedure used by the Australian Bureau of Statistics in carrying out its statutory obligation to protect the confidentiality of individuals. This variation in figures does not impair the value of Census data as the Census is intended to be an instrument that paints a broad picture rather than a precise measurement of a particular locality. Care should always be taken in interpreting small counts in tables.

Age and sex

Disability

The 2006 Census was the first to include the variable Core Activity Need for Assistance. The variable was developed to measure the number of people with a profound or severe disability. ABS defines the profound or severe disability population as: "those people needing help or assistance in one or more of the three core activity areas of self-care, mobility and communication, because of a long-term health condition (lasting six months or more), a disability (lasting six months or more), or old age". Most people who need assistance with core activities live either in a family or in a place such as a nursing home, where the care they need is provided. But many live alone. Often people with a disability have fewer opportunities for social interaction.²

How does the diocese support people who need assistance with core activities? How well are Catholic schools in the diocese equipped to meet the needs of students with a disability?

How does the diocese support and encourage Catholics who provide unpaid assistance to people with a disability?

Table 11a: Need for assistance with core activities by age	0-14	15-44	45-64	65-74	75-84	85 and over	Total

Marital Status

The marital status patterns of Australian Catholics have changed quite dramatically over the last two decades. At the time of the 1991 Census, 31.4 per cent of Australian Catholics aged 15 and over had never been married, 55.4 per cent were married, 7.4 per cent were separated or divorced and 5.8 per cent were widowed. By the 2016 Census, these figures were respectively 33.3 per cent, 49.7 per cent, 11.2 per cent and 5.8 per cent. Since 1991, there has been a substantial fall in the percentage of married Catholics and a rise in the percentage of the never married and separated and divorced.

How might changes in marital status patterns affect the life of the Church in this diocese? Do they result in the need for new pastoral services and programs?

The graph shows the percentage of Catholic men and women aged 15 years and older who lived in the diocese at the time of the 2016 Census and who had changed address in the previous five years. Across Australia in 2016, 36.6 per cent of Catholics aged 15 and over had changed address since the previous Census.

Families

The table on this page shows family composition by weekly family income, with the median weekly family income for each type of family shown in the last column. Couple families are divided into three categories: both partners Catholic, Catholics with non-Catholic Christian partners, and Catholics with partners identifying with other religious traditions or none. The table includes partners in registered and de facto marriages.

Couples without children include those who have never had children as well as those whose children no longer live at home.

What is the proportion of 'mixed marriages' among couple families in this diocese? It is likely to be higher now than previously. How does this alter the pastoral needs of families, and how does it affect diocesan services, including Catholic education?

Is this a particularly difficult time, financially, for families in the diocese? What assistance is the diocese able to give struggling families? Note that the income of one-parent families is likely to be much lower than that of two-parent families. What support services can the diocese offer one-parent families?

Table 14: Family composition ¹ by weekly family income	Less than \$500	\$500 - 799	\$800 - \$1,249	\$1,250 - \$1,999	\$2,000 - \$2,999	\$3,000 - \$3,999	\$4,000 or more	Income not fully stated	Total families	Median Family Income ² (\$)

Notes:

- 1. A family is defined by the Australian Bureau of Statistics as two or more persons, one of whom is at least 15 years of age, who are related by blood, marriage (registered or de facto), adoption, step or fostering, and who are usually resident in the same household. Family members who live elsewhere are not included in the Census definition. For Census purposes, a Catholic family is defined as a family in which at least one person is Catholic.
- 2. Median weekly family income: fifty percent of families have a higher income, fifty percent a lower income. Family income is the sum of the incomes of all family members aged 15 and over.
- 3. The religious affiliation of a temporarily absent spouse is not recorded, hence families in this category could belong to any one of the first six categories above.

Households

The Australian Bureau of Statistics defines a household as one or more persons, at least one of whom is at least 15 years of age, usually resident in the same private dwelling. Non-private dwellings such as motels, guest houses, prisons, religious institutions and nursing homes are not included in household statistics. A household can consist of one or more families, non-family groups or persons living alone.

The figures on this page refer to households in which at least one person is Catholic.²

There were 8,861,600 households in Australia in 2016. At least one Catholic person lived in 2,548,400 households, or 29 per cent of all households. Seventy-eight per cent of these Catholic households were family households and, of the Catholic family households, 75 per cent were occupied dwellings that were owned or being purchased.

What is the current housing situation in this diocese? For example, is there a sufficient stock of rental properties available? Are there areas with large numbers of new houses? Are families under stress to pay rent or meet mortgage repayments? What aspects of the diocese's pastoral strategies relate to housing issues?

Table 17: Household composition by tenure type	Fully owned or being purchased	Rented from State or Territory Housing Authority	Rented from other landlord, or landlord not stated	Other households	Total households	Per cent owned or being purchased

Birthplace

Catholics born overseas, especially those born in non-English-speaking countries, are likely to have different approaches to faith and spirituality, and different experiences and expectations of Church life, from those of Catholics born in Australia.

How does the diocese support Catholics born in non-English-speaking countries in matters such as chaplaincy, education, pastoral care and so on?

Is there a need for the diocese to review the way it addresses the needs of Catholics who have arrived in Australia in recent years?

 [%] recent arrivals = the percentage of Catholics who were born in the named country and who arrived in Australia between 2013 and 2016 inclusive.

Language

In 2016, 20 per cent of Australia's Catholics spoke a language other than English at home, and three per cent were not proficient in English. People who do not speak English well can face practical problems in education, employment and access to services. On the other hand, it is important to many people from a non-English-speaking background to maintain and promote, for reasons of cultural continuity and identity, the use of their home language.¹

What provisions does this diocese make for people who do not speak English well in terms of availability of Masses in languages other than English, interpreters at diocesan events, translation of written material, access to priests and other pastoral ministers who speak their language and so on?

Is there a need for current services to be reviewed in the light of recent changes to the non-English-speaking Catholic population?

Table 20: Language spoken at home by religious affiliation	Catholic	Not Catholic (or not stated)	All persons	% Catholics among speakers ²

Language

Why does the proportion of people not speaking English well vary for different languages spoken at home? Part of the explanation lies in differences in average period of residence of the various language groups. Another factor is 'cultural distance': the more people from a particular culture share the customs, beliefs and lifestyles with the majority Australian culture, the easier it will be for them to overcome language barriers. A third factor is the size of the language group and the pattern of settlement. The concentration of large numbers of speakers in a region tends to reinforce the use of that language.¹

What are the most commonly spoken languages other than English among the Catholics of this diocese? Are speakers of some languages more likely than others to have difficulty with English? Can you see the influence of the three factors outlined above reflected in the figures on this page?

Table 21: Language spoken at home by age	0-4	5-11	12-19	20-29	30-39	40-59	60 and over	Total	% who do not speak English well

Attendance at Educational Institutions

According to the 2016 Census, more than 719,000 Australians attended Catholic schools, accounting for almost 21 per cent of all school students in Australia.

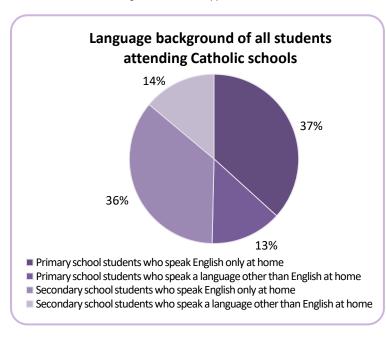

In 2016, there were 915,100 Catholic students—almost one in six of all Catholics—attending Government, Catholic, and other non-Government schools. They constitute a very large sub-group of Australian Catholics, considerably larger than the 623,400 or so who attend Mass every Sunday. A further 317,600 Catholics were involved in some form of post-secondary education. The Church of today, not just of tomorrow, is being shaped by the attitudes, beliefs and lifestyles of these young people.

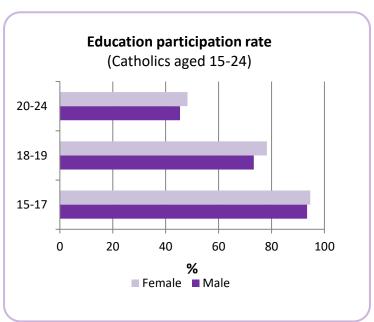

How does the diocese connect with Catholic students at primary, secondary and tertiary levels, especially those not attending Catholic schools?

Table 22: Type of educational institution attending by religious affiliation	Catholic	Not Catholic or not stated	All persons	% Catholic
Infants/Primary – Government	19,148	93,228	112,376	17.0
Infants/Primary – Catholic	29,974	8,174	38,148	78.6

Notes:

- 1. Because the population of this table is dependent children aged 5-14 and dependent students aged 15-24, the figures in the table refer to individuals, not families. The table shows, for example, the number of Catholic students attending Catholic primary schools whose families have a weekly income in the range \$1,250-\$1,999. A brother and sister at the same school would account for TWO of the cases in this category.
- 2. A column of figures for "Family income not fully stated, or not stated at all" has been omitted from the table, but the missing figures are included in the Total column.
- 3. Family income is the sum of the incomes of all family members aged 15 and over.

Educational Qualifications

Both the percentage of Catholics with university degrees and the gender balance of Catholics with degrees have changed dramatically in recent decades due to the upsurge in young people, especially women, undertaking tertiary study and the upgrading of courses such as nursing to degree status. In 1991, less than seven per cent of Australian Catholics aged 15 or over had a degree; by 2016, that figure had reached 21 per cent. Among Catholics aged 15 to 34 years in 2016, 25.8 per cent of women had a degree compared to 15.6 per cent of men. In contrast, among Catholics aged 55 and over, 13.8 per cent of men and 13.6 per cent of women had degrees.

To what extent has participation in higher education in theology and related fields kept pace in this diocese with participation in higher education in general? What new challenges and opportunities are presented to the diocese as a result of the increase in the number of Catholics with a university education?

The increased level of participation in higher education by women is a reflection of significant changes in women's roles and responsibilities in society. How have women's roles and responsibilities in the diocese changed in the last two decades?

Employment

In recent years there have been many changes in society and the workplace that have affected Australian workers. One major change has been the increase in the percentages of workers, especially young people and women, in part-time jobs. Another has been the rise in participation in the labour force by women. A third major change has been the rise in participation in the labour force by older workers, following the removal of incentives to early retirement and resulting in the continuing availability of their skills, experience and maturity in the workplace. Changes in labour force participation also influence the availability and size of the volunteer workforce, and can both reduce and change the pattern of workers' leisure time.

Have any of the changes described above had a noticeable impact on Catholic life in this diocese?

- 3. The percentage of Catholics in each age group who were in the labour force and were unemployed at the time of the Census.

Occupation

Catholic women are more likely to be employed as managers or professionals; 35 per cent of Catholic women and 33 per cent of Catholic men who reported their occupation in the 2016 Census worked as managers or professionals. But men were much more likely than women—47 per cent compared to 12 per cent—to have a 'blue collar' occupation. The largest occupational category for Catholic men in Australia is Technicians and Trades Workers. For women, it is Professionals.

^{2.} See Notes 1 and 2 on page 5 for the type of occupations covered by the terms 'Managers and Professionals' and 'blue collar'.

Occupation

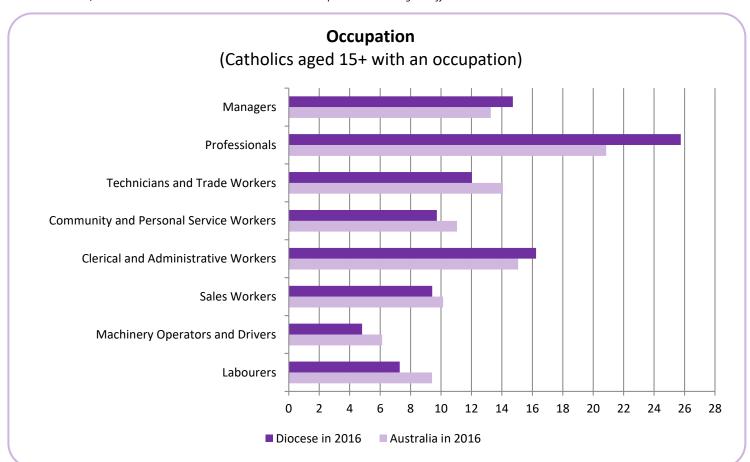

Occupation is one indicator of socioeconomic status. The table on this page shows the occupation of all persons aged 15 years and over by religious affiliation.

Does the following table suggest that the socioeconomic status of Catholics in this diocese is different from that of non-Catholics? If there are differences, how might they have arisen?

Table 27: Occupation by religious affiliation¹(%)	Catholic	Non-Catholic
All persons aged 15+ with an occupation		
Managers	14.7	14.4
Professionals	25.8	30.3
Technicians & Trade Workers	12.0	10.8
Community & Personal Service Workers	9.7	9.6
Clerical & Administrative Workers	16.2	13.7
Sales Workers	9.4	8.9
Machinery operators & Drivers	4.8	5.0
Labourers	7.3	7.5
Total	100.0	100.0

Note:

^{1.} In this table, 'Not Catholic' includes those who did not answer the question about religious affiliation.
